I joined BTC in 2016 as a beginner for the social part of tennis. After about a year, I started playing matches for the club. I still get butterflies in my tummy before every match. I have two children in tots tennis and 2 step children who also love playing tennis. It's such a great game for all ages. I look forward to the day I can partner up with my children for a match. We have, as a family, found the club to be open, welcoming, friendly and a safe place to be.

As Welfare Officer for the club and I take the lead in ensuring that all children, youths and adults are safe both when at the club and out on club events or tournaments. The safety and well-being of each and every member, parent and visitor is tantamount to our ethos.

If you have any safeguarding concerns, please feel free to contact me - my details are above. All conversations are treated with the strictest confidence and the processes and protocols followed are set out in the LTA Safeguarding Policy, available to view on the noticeboard.
