

BTC Team Selection Policy (adopted on 22nd August 2017)

Captains are elected for each team at the AGM and should act with integrity when judging ability*, fairness and consistency (*ability is assessed by Captains at pre-season trial sessions).

A team captains select players first, based on ability

B team captains select players thereafter based on ability

Remaining players, if deemed of sufficient standard by the elected captain to represent the club, will be entered into C teams but may be invited to play in higher teams if support is required.

All players will be given a reasonable rotation of games throughout the season with consistency and captains should liaise with each other to support selection

Any player with a grievance regarding selection should first approach their captain and if not resolved to escalate to the Chairperson.
