

The wait is over...

Our 'Clay Carpet Court Surface' is complete and ready for play.

Official Court Opening Ceremony

We plan to hold an official court opening ceremony in the next few weeks, which all members will be welcome to attend. Please keep an eye on emails for more details. **Until then, both courts are available for play and can be booked on the clubspark system.**

Important Clay Carpet Court Maintenance

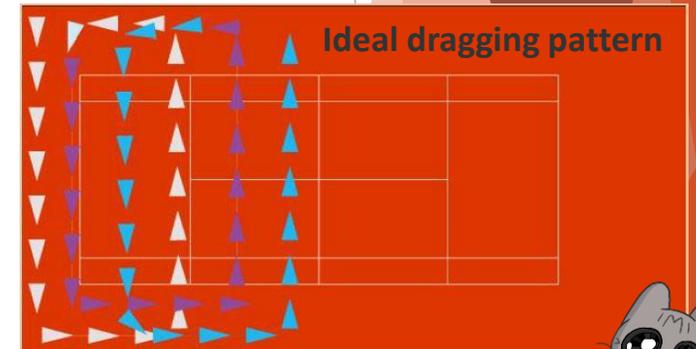

When play is finished the 'clay' must be levelled out over the court (ideal coverage is 2 mm, or the thickness of a 2p coin) so that it completely covers the carpet underneath.

Therefore we request that all members please:

- drag each half of the court after they have played, including the back (between baseline and fence)
- use the clay drag-mats kept in the corner of each court(one for each court)
- drag each court separately
- use the line brush to sweep the lines clear as and when necessary
- **do not attempt do brush the courts if they are very wet** as this can cause the sand to clump.

THE GOLDEN RULE IS ALWAYS TO LEAVE THE COURT AS YOU WOULD WISH TO FIND IT

If we all do the basic maintenance and we "deep clean" as necessary, then there is no reason why this surface will not last for 15 or 20-years!

The price of playing on this wonderful surface means a 3-minute sweep after every match. A price worth paying...
