Purchasing a Membership using GoCardless

GoCardless is a Direct Debit organisation and you can purchase a membership as a one off payment (pay in full) or via monthly installments.

Please note: Coylton LTC uses the GoCardless payment services provider to collect payments. This payment provider is authorised by the UK Financial Conduct Authority. Neither Coylton LTC nor Clubspark holds any financial details in the product.

The advantage for you and the club is that your membership is made active from the moment you complete the registration which means there is no lag time before doing this. If you pay by cash or by direct debit through your own bank, it can take up to a week to make your membership active.

Also note that the following images are from a test environment and not the club's.

Troubleshooting:

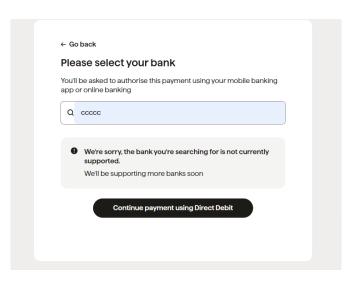

Q: I don't have access to my mobile banking app?

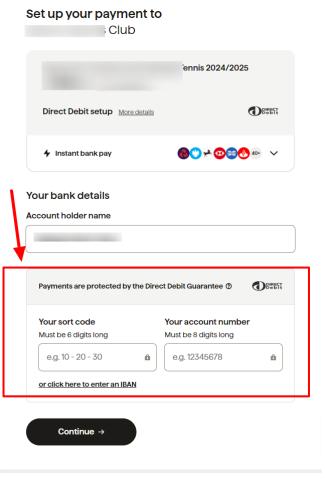

A: GoCardless has added this step in to prevent fraudulent transactions. They are working closely with all banks to ensure this is in place. GoCardless states 95% of UK banks are using this authorization method.

However, there is a workaround if you don't have access to your online banking.

In Step 9 - where it says Please select your bank - enter OTHER or CCCCC as shown. This will then show the button Continue payment using Direct Debit.

From the next page (shown right) - you can enter your sort code and accounting number.

Q: My bank is not supported?

GoCardless are working with banks - all the banks that are supported are listed **HERE**. If your bank is not listed, see above and follow the same instructions.
