

## **Our rules and expectations on court bookings**

These rules are subject to the usual enforcements which can be found at [here](#).

Members must not play on a booked court immediately or near immediately followed by playing again on another booked court if play totals more than 90 mins. It's 90 mins max per person but if courts are empty/not booked you can stay on longer.

Some examples of things not allowed are:

- booking then immediately or near immediately following it up with a booking in someone else's name from the family
- booking then immediately or near immediately following it up with a booking in a playing partner's name
- moving around courts in different bookings whether in one name or a playing partner's name
- playing in bookings not in your name but you are still playing on a booked court immediately or near immediately followed by another booked court

**The spirit of the rule is key and we will enforce the spirit as well as the detail. 90 mins booking maximum and 90 mins per person maximum unless a court is free at the conclusion of your 90 mins booking**
