## LTA ClubSpark Single Login

Hi

As we're sure you're aware, over the last few months **the LTA has made some changes to the way you and your players log in** to the LTA ClubSpark platform. In future, you will only need to remember one login to access all LTA digital systems.

We've been completing this in phases, and the use of a single sign-on has been successfully rolled out with many clubs (and some of your players will have already made the transition if they were using social accounts).

Your organisation's single sign-on migration will take place from **Monday 7th February 2022**. The process is simple:

1. You and your players will need to **log in as normal with your ClubSpark (email/password) account**
2. You'll then be asked to complete the short 2–3 minute process to **create or merge with an LTA account**.
3. **You're all set!** Next time you visit the LTA Clubspark platform or any LTA system, remember to use your LTA account.

**Big Thanks to Debs Martin** for mending the holes in the nets.... in the freezing cold weather! Now no more lucky trick shots through the net!!
