About me I joined Minchinhampton tennis club in 2004 as a beginner and have enjoyed playing a mixture of social and team tennis since then. I am a structural engineer and have two children.

I look forward to working with members of the club to ensure that everyone is able to enjoy tennis in a safe environment and that each person is respected and valued.

Please don't hesitate to contact me for help or advice if you have any concerns about the welfare of a club member or, indeed, your own welfare.
