

We want to make sure that tennis in Neath survives
We need to participate in leisure from our busy lives
So the ball has now gone back firmly in the court
To provide the opportunity to back up this sport

Tennis is a brilliant game that everybody can play
And we all want this facility in the town to stay
And how splendid it would be to play every day
This group will be going forward to show the way

many of us watch Wimbledon and find it exciting
We want our tennis courts back and to be inviting
I want to hit that ball over the net like lightning
I can assure you that I have no intention of retiring

So let it be game match and play the first set
Let's get the ball rolling and put back up the net
So now my good friends this going to be the test
To keep this campaign going and never get rest

Tennis is a highly spirited sport for all to watch
So let's get going in Neath and move up a notch
To inject all our passion with energy and vitality
for the community to enjoy this needed facility

I still have my old tennis racket up there in the loft
And I am going to get it down before it goes soft
Sadly for most of us our lives never stay the same
But I am going to look forward to play tennis again

Councillor John Warman, 2018
