

The West End Lawn Tennis Club Environmental Policy 2020

West End Lawn Tennis Club is a 4 acre site close to the centre of Dundee. Providing tennis opportunities to the local population, run by a voluntary committee, it has an excellent pedigree in encouraging participation in sport to a broad sector of the Community.

As a responsible institution we intend to grow and develop in a sustainable manner. We pride ourselves on being closely integrated into the economic, cultural and social life of the city, and intend to demonstrate environmental leadership.

We recognise and are committed to reducing the environmental impacts of our Club's operations.

It is our Policy to:

- Integrate Environmental Management into our day-to-day work
- Meet and where appropriate exceed all relevant legislation, industry standards and regulations.
- Minimise our consumption of natural resources in relation to:
 - o Energy and water efficiency
 - o Waste minimisation and recycling
 - o Sustainable procurement and influencing suppliers and contractors
 - o Transport policies and fuel use
- Characterise, monitor and minimise aspects of our work that have an impact on the environment, including prevention of pollution by reducing emissions and discharges.
- Provide appropriate environmental education, training and communication for staff and court users to raise awareness of environmental issues.
- Make this Environmental Policy publicly available and respond to reasonable requests for information about our environmental performance
- Demonstrate continuous improvement in all of our activities which impact on the environment
