CURRENT WORKS

Hedge trimming is currently taking place on our perimeter hedges. This was highly recommended by court contractors to help provide sunlight and wind to enable the courts to breathe whilst also reducing foliage falling on to court.

We want to say a massive thank you to all those involved in this project, especially - Steve, Mick, Den, Dave, Mick and our local farmer.

COURT REFURBISHMENT

We are thrilled to announce a major enhancement with the replacement of courts 1 & 2. The upcoming transformation involves the installation of state-of-the-art Tiger Turf Advantage Pro.

We have a start date of the 11th of March, with Leicestershire based Charles Lawrence conducting the work, we're delighted to have them on-board!

Members can anticipate a short disruption during construction, courts 3 & 4 will still be playable. The completion date is set for the 1st of April, ensuring that members can look forward to enjoying the enhanced playing experience just in time for the upcoming tennis season.

Thank you for your understanding as the work is completed and hope to see you on court soon!
