

## Club Communication to Players and Parents

---

The primary means of club communication is via email. Emails, including newsletters will come from Tennis Squad and from the club itself via our ClubSpark member-management system. Please check your emails regularly.

A Llantrisant Tennis Parents group operates on WhatsApp and Facebook and is open to both members and non-members provided their children are involved with club activities.

As well as receiving bulletins on events (which are also shared on the club page / website and via email), polls and requests for volunteers are also made.

Similarly, there is a general club Facebook page which is to promote our family-friendly club to the wider world.

Where Parents or club members wish to contact the club, contact details can be found on the club website. <https://clubspark.lta.org.uk/llantrisanttennis>
