## **MPLTC SAFEGUARDING UNDER 13 SUPERVISION POLICY**

### **Unsupervised Children**

The Club requires parents to assume full responsibility for the supervision of their children. Without prejudice to the generality of the foregoing, please do not leave children under the age of 13 unsupervised at the Club at any time.

Children aged 13 and over need parental consent to be at the Club unsupervised

It is a parent's responsibility to teach their child how to respond to emergencies or situations that may arise outside the house, so they feel confident when their child is not under their supervision.

Whilst Clubmark clubs have child protection policies along with a designated Welfare Officer, this is to support in safeguarding children and young people and respond to any issues that may occur, not to take on parental responsibilities.

You may know all club members well, however specific arrangements still need to be made by you and another adult to supervise your child. The club and your child will need to be aware of any such arrangement. Children who are left on club premises with lots of adults is not acceptable.
